 Y----- Message Contents -----\par  
 YTim,\par  
 Y\par  
 YI was afraid someone would ask. I'll try to explain....\par  
 Y\par  
 YCITGO is the ComEd customer on the billing account. BUT., There are two\par  
 Ycompanies (possibly 3) on the CITGO site (I'm using 'site' to be\par  
 Ydescriptive of our billing account). The problem comes from the\par  
 Ydifference\par  
 Yin the billing name and the actual companies.\par  
 Y\par  
 YThe only account on record with ComEd is CITGO's account FU75-BZ-43079.\par  
 YHowever the 'company' Unocal is included in this account and has three\par  
 Yservice locations (one from the 34kv J332-3 and two 12kv locations).\par  
 YHaving 2 companies and only one ComEd account is unusual to say the\par  
 Yleast,\par  
 Yand this is OK by our billing rules.\par  
 Y\par  
 YYou may want to have Unocal's name on J332-3 for clarity(?). They have\par  
 Ydifferent phone numbers, personnel, etc... that are responsible for\par  
 YUnocal's electric power distribution inside the refinery. CITGO (the\par  
 Ycompany) does not operate J332-3, unocal does.\par  
 Y\par  
 YAny more questions, email or call me.\par
